

GERMANIUM TOUCH BEAUTY

ICONIQUE
REVOLUTIONARY BEAUTY

Driven by innovation, this facial roller utilizes forward-thinking technology for skin that is revived, toned, and uplifted with overall improved facial contour and lymphatic drainage.

The Iconique Germanium Touch uses advanced technology to rejuvenate and tone the skin, improve facial contours, and promote lymphatic drainage. It is made with germanium, which helps balance and activate ions that affect aging and protects the skin from environmental damage.

Acupressure pods that apply light pressure to stimulate the body's healing abilities, resulting in reduced puffiness, improved skin tone, and a radiant complexion.

Balances and activates ions that affect aging to counteract over-exposure. Utilizes acupressure to stimulate the body's key healing points for a gradual improvement.

PROMOTES LYMPHATIC DRAINAGE to improve fluid retention, circulation, and reduce puffiness for a more youthful look.

TENSION RELEASE Using the Germanium Touch on the face is similar to getting a massage on the body, which helps to release tension in the facial muscles. It is effective in relieving tension in the head, jaw, neck, and other areas that may need it.

COOLING, DE-PUFFING, UPLIFTING AND FIRMLING: Radiance Roller cools the skin and promotes lymphatic drainage for de-puffing, while its massaging action tightens and firms facial muscles, enhancing natural contours and reducing the appearance of fine lines and wrinkles. For added benefit, it can be cooled in the refrigerator.
