

ELIPTICITY 180

A revolutionary phototherapy device that offers healing and antibacterial effects of LED devices to your whole body.

The Ellipticity 180 is a cutting-edge phototherapy device that provides the healing and antibacterial benefits of LED technology to the entire body. It utilizes different LED lights and intensity levels to soothe, repair, and revitalize damaged skin cells. It accelerates skin renewal by extending cell regeneration time, delivers nutrition deep into the skin, improves blood circulation, and reduces the appearance of blemishes.

Encourages skin renewal

PDT is proven to promote skin renewal by increasing the production of collagen. It also helps repair and protect the cells from damage by building a layer around the cells.

Improve skins health

LED Lights penetrates deep into the skin. It stimulates and promotes blood flow. It also reduces swelling and promotes faster cell turnover for an overall healthier glow.

Minimizes and fades blemishes

Elipcticity also helps in minimizing and fading blemishes and scars on the skin. As LED penetrate into the skin's layers, it renews and rejuvenates the skins surface making it look healthier and youthful.

ICONIQUE
REVOLUTIONARY BEAUTY

Uses the power of 7 light modes

Purple light – stimulates the secretion system as well as repair damaged skin cells.

Red light – Effectively soothes inflammation and pain as well as accelerate wound healing.

Yellow light – lightens freckles and improve the look of hyper pigmentation. This mode also promotes production of hormones to regulate the body and the skin's overall health.

Green light – calms and relaxes the senses. This mode also improves sleep quality, heal blemishes as well as wrinkles.

Orange light – Promotes the skin's blood circulation. This mode also improves thyroid function.

Blue light – stops bacteria and other viruses from forming on the skin's surface. It also improves lymphatic drainage and prevents blemishes, stretch marks and excess oil production from occurring on the skin.

Calcium supplement light – improves the body's metabolic balance for bone density and strength.
