

BIOTEN BRUSH

ICONIQUE
REVOLUTIONARY BEAUTY

Your new photodynamic massage comb takes the principles of meridian Science in Traditional Chinese Medicine with vibration, phototherapy, and massage.

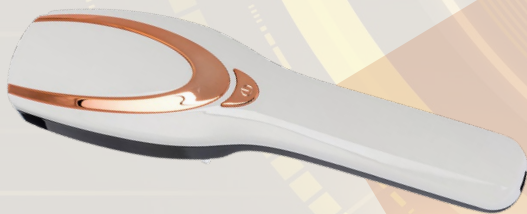

The Bioten massage comb incorporates the principles of meridian science in traditional Chinese medicine with vibration, photo therapy, and massage to provide a comprehensive home care solution for hair loss, hair strengthening, and fatigue relief. It features 28 soft massage contacts that target acupuncture points on the scalp to enhance blood flow and relax the head.

Meticulously designed according to ergonomics with specific 28 static-free massage contacts and built-in-high-performance motor.

Effectively reduce hair loss

The device is designed to alleviate muscle tension and reduce fatigue, activate cellular activity, and enhance nutrient absorption. Improves blood flow to the scalp, delivering oxygen and nutrients to hair follicles, promoting hair growth and preventing hair loss.

Red Light Photo-therapy: nutrients to hair follicles, stimulates collagen production, and helps to prevent hair loss.

The device is designed the top of the head and combing down to the ears, then combing and massaging the head back down to the neck, and finally combing and massaging above the forehead.
