## DESCRIPTION

**T**he Opera Treatment used a different LED light therapy mask to have a clinical and beauty benefit to regenerate and balance the skin and also to eliminate the dead skin cells build-up. Its color rays could penetrate up to the third layer of the skin and fix any problematic occurrence on the layer of visage.

The treatment can able to nourish and cleanse the face as well as lessen the fine lines or wrinkles and also toning down the facial muscles. It can also restore the skin cells because sun exposure may cause damage to the visage.
